colours in 100% merino wool GOTS or 100% cotton

Choose one of these 27 patterns and your scarf or hat will be knitted using the doubleface technique – the pattern will appear on both sides, once in positive and once in negative.

All colours are available in either 100% GOTS merino wool or 100% mercerised cotton.

On request, I will gladly send you yarn samples in advance (service charge of € 9-, including postage within Austria).

With 10 colours in the palette, there are 45 possible colour variations, as you can see here in the example:

On request, I can provide a preview of the combinations for your desired pattern.

# Your design

Of course you can also design your own pattern, either via a design software (DesignaKnit, Photoshop...) or on websites like [pixilart.com](http://pixilart.com), [piskelapp.com](http://piskelapp.com), [stitchfiddle.com](http://stitchfiddle.com)

## Important

Please follow these parameters and instructions:

- **pixel sizes:**

scarf G1	116 x 848
scarf G2	145 x 1240
knitted hat	195 x 426

- Only use **2 colours** in total: Motif and background
- For designs with a (smaller) repeat, it is not necessary to fill the entire area; it is sufficient to draw **only one repeat**. Please note here that only a **basic repeat** can be knitted.
- Save the finished design - pixel graphic as a **.png or .tiff file** and send it by email, specifying your two preferred colours:  
[veronika@persche.com](mailto:veronika@persche.com)

If the design needs to be edited, a fee of € 79,-/hour (plus 13% VAT) will be charged after consultation.
